Tacoma, WA. 98403

Greetings from Logos House!

Read of your work in the D.C. area and we are in the "other" Washington. We now have 22 plus houses in our area and serve men, women in pre and post treatment and work with prison release, persons with AIDS and mentally ill chemical abusers in much the way it was described in "Alcoholism Report of October 25, 1988".

Could you provide any more information on how to activate the loan process and your house rules and guidelines? We have noticed a real change in how our local governments view in-house meetings and "non-related" residents. Any help would be appreciated as we plan to meet with the city in the next couple of weeks on expansion plans. Thanks for all of us in recovery for what is being done. God bless you and your work.

Barry McCabe
